**CONVENIENCES:** Boil Achieved in Microwave Within Seconds | Make Coffee, Tea, Hot Chocolate, Cocoa, and Soup | Prep Noodles and Vegetables | Make Pasta Al Dente | Clean Cheese Graters | Remove Wax Residue | Loosen Jar Lids | Remove Labels From Bottles | Warm Baby Food or Bottles | Clean Pots and Pans

### INSTALLATION:

Easy to install quick-connect fittings and convenient connections reduce probability of kinked or twisted water lines. Compatible with RO systems.

### CONSISTENT PERFORMANCE:

1500 WATT HEATING allows fast recovery time. A large 2.5 quarts (2.4L) reservoir delivers a generous 80+ cups per hour capacity. Concealed heating element provides greater capacity and durability

### RELIABLE PERFORMANCE:

Due to the high temperature of the water, the tank is not under pressure. Our self-contained expansion chamber reduces dripping.

### FINGERTIP ADJUSTMENT:

208°F (98°C) hot water at your fingertips adjusts from 122°F (50°C) to 208°F (98°C).

### AUTOMATED HEATER PROTECTION:

Self re-setting thermal fuse protects the product in the event of a dry start up.

### ENERGY EFFICIENT:

Uses less electricity than a 40 watt light bulb. Standby power use is less than 1 watt. Comes with installed power cord.

### WARRANTY:

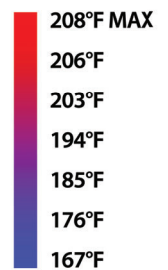

3-Years Canada and USA

Designer Faucets Sold Separately
