

Double Core 5-Stage Deep Filtration System

Ditch bottled water & save 75% by drinking great tasting RO water.

PP Cotton

Filters sediment, rust and other large particle impurities.

Carbon Fiber

Removes chlorine and other odors.

High Precision PP Cotton

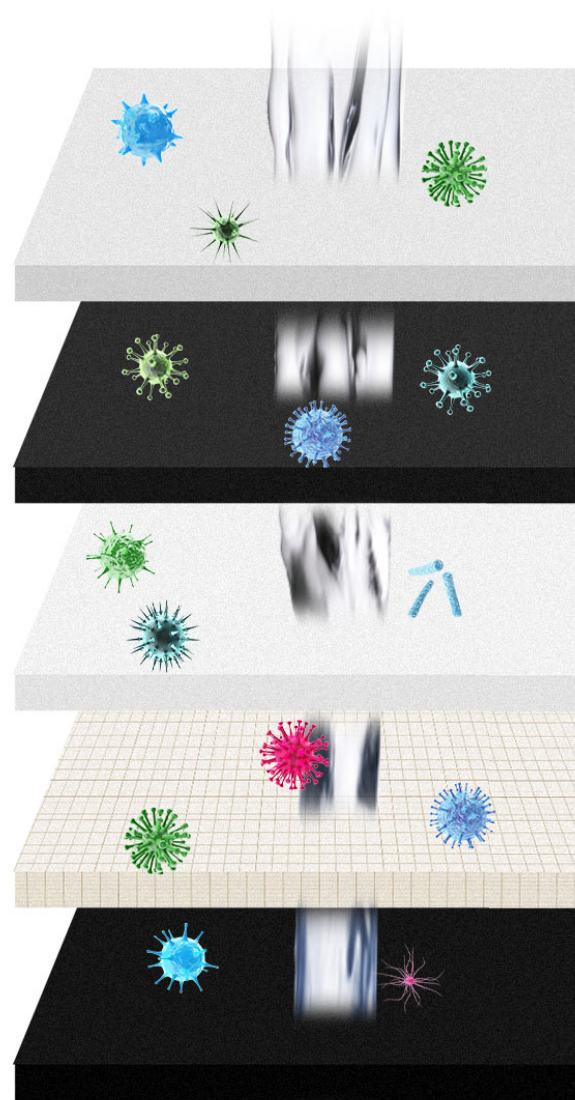

Intercepts suspended solids / colloids.

RO Membrane

Removes bacteria/heavy metals.

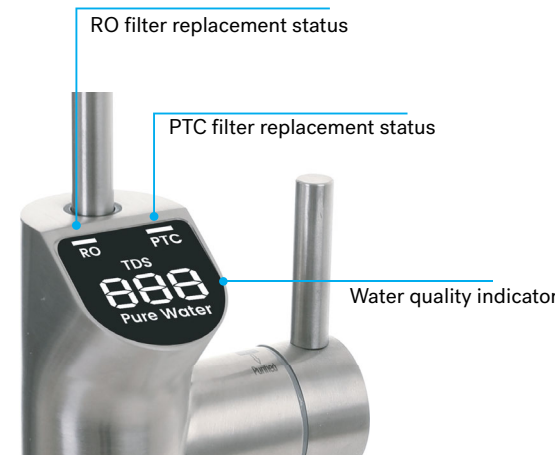

Rear Carbon Rod

Improves taste and freshness.

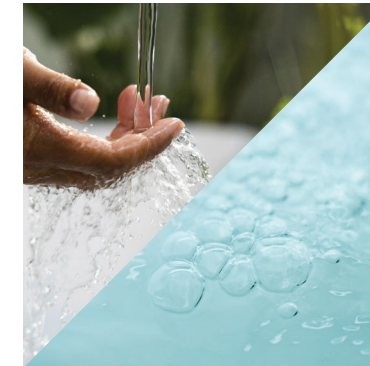

Healthy water is an essential cornerstone of overall well-being. It is vital for hydration, nutrient absorption, and toxin elimination. The J-RO 5 ensures that every drop of water consumed provides a foundation for optimal health.

Beyond Filters: The Future of Fresh.

Convenience

- Smart faucet with real-time digital display shows filter life and TDS reading
- Use RO water as drinking water and filtered water for cooking, cleaning vegetables and watering plants.

Efficient

- Tankless design
- 600 GPD
- 3:1 Pure water to wastewater ratio
- Flow rate: 8.50 cups / min | 2L / min
- Compact undercounter RO unit

Ease of use

- 2 filter replacement indicators – on faucet and RO unit
- Twist and pull to replace the filters in seconds
- 2-in-1 faucet dispenses RO water or filtered water on demand

Fast water flow

8.50 cups / min | 2l / min

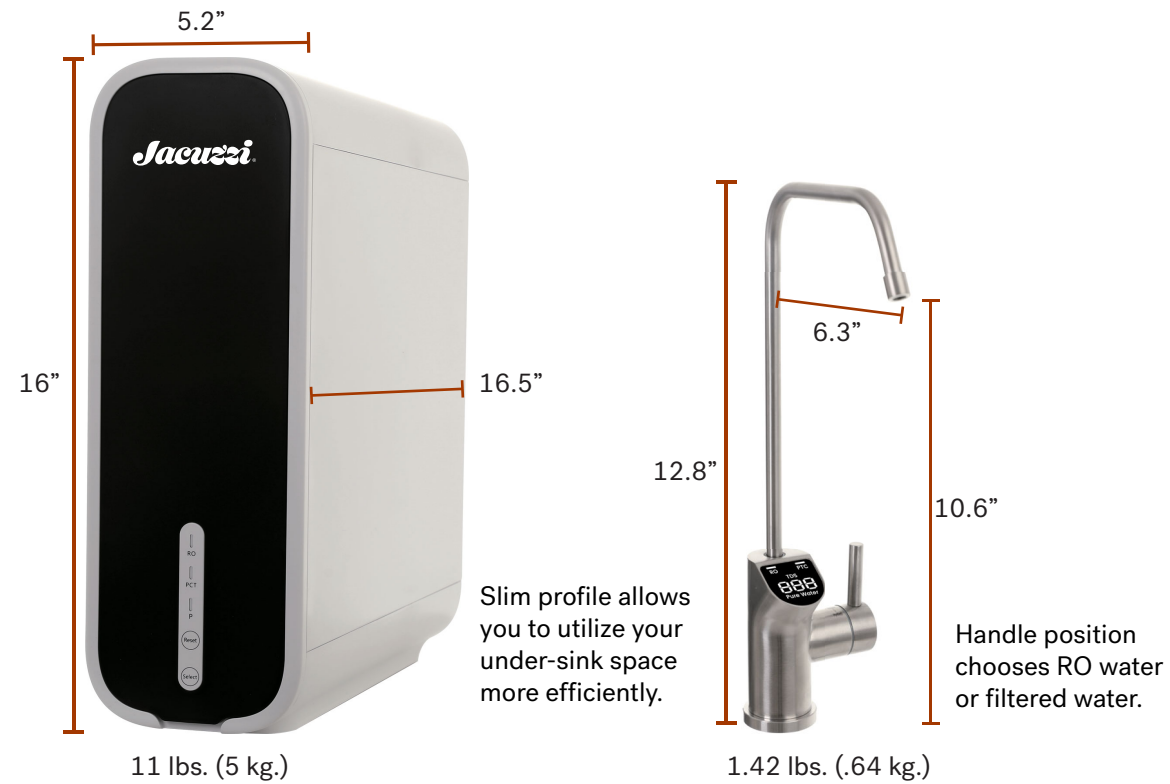

3:1

Pure water to waste water ratio

Specifications

Jacuzzi®

Tankless 5-Stage RO Water Filtration System

Pure tasting healthy water that wows!

3:1 Pure water to waste water ratio

Costs 75% Less Than Bottled Water

- Save money by retiring the bottled water
- Help the planet by reducing plastic in landfills
- Use a refillable container and take RO water with you

Unit does not need to be mounted.
FLUSH UNIT FIRST
BEFORE DRINKING WATER

Product / model	Reverse osmosis water purifier. Model# J-RO 5
Voltage / frequency	100-240V-50/60Hz
Rated power	95W.
Applicable water pressure	0.1 MPa-0.4MPa.
Clean water flow	95L/H(600G) 126L/H(800G)
Rated total net water	4000L.
Anti-electric shock type	Class II.
Applicable environment	Ambient temperature 5 °C-45 °C, relative humidity ≤ 90% (indoor)
Applicable water temperature	5 °C-38 °C.
Applicable water quality	Municipal tap water.

Includes

- Stainless steel smart faucet with digital display
- RO Unit
- Pre-installed PCT and RO filter
- AC power supply
- Hoses and installation accessories

BR-JRO5-231
