

BIO-SHIELD UV-C AIR SANITIZER SYSTEM

Cleans, Sanitizes, and Freshens Air in Your Entire Home!

Kills Bacteria, Allergens & Viruses With UV-C Ultraviolet Light

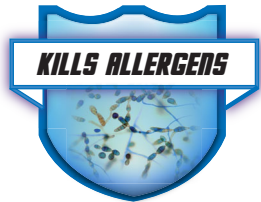

Guards your family 24/7/365 for less than operating a 25 Watt light bulb.

BIO SHIELD UV-C AIR SANITIZER SYSTEM

Cleans, Sanitizes, and Freshens Air in Your Entire Home!

Healthier Home

Attacks and Sanitizes Allergens and Pathogens blowing throughout your Heating and Air Conditioning ductwork that can cause:

- **ALLERGIES**
- **ASTHMA**
- **COLDS**
- **FLU**
- **SINUS INFECTIONS**

Improves A/C Efficiency

- Lowers operation costs of running the a/c system
- Reduces or eliminates airborne mold, bacteria, viruses, fungi and spores
- Quick and easy Installation
- Produces no ozone, fumes or other secondary contaminants
- Stops mold and bacteria growth inside your central air conditioning system
- Operates continuously at maximum efficiency without the need for constant adjustment

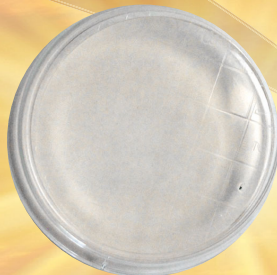

Kills Bacteria and Viruses With UV-C Ultraviolet Light

BEFORE

Typical A/C mold growth before Bio Shield UV-C Air Sanitizer.

AFTER

Typical A/C mold growth after Bio Shield UV-C Air Sanitizer installation.

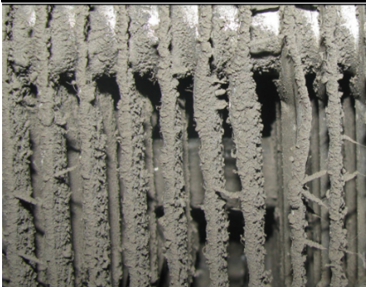

Attacks and sanitizes:

- **BACTERIA**
- **GERMS**
- **VIRUSES**
- **MILDEW**
- **MOLD SPORES**
- **AND MORE**

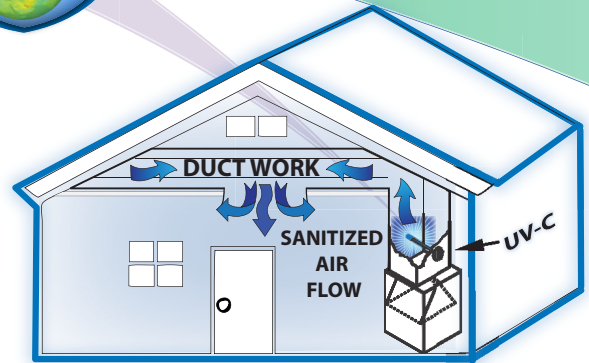

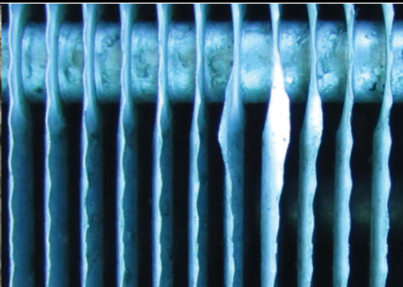

Naturally Clean Environment

Eliminates need for costly duct cleaning

Coils Before UVC

Coils After UVC

How It Works

1
Air Sanitizer is easily installed inside your Heating and Air Conditioning ductwork.

2
Short wave (UV-C) kills or de-activates bacteria, viruses and other infectious organisms already there and stops them from reappearing in the future.

3
Produces Sanitized air flow contributing to a healthier home environment.

Features

- Improves comfort and reduces A/C run time, and thus energy use
- Safe 24V low-voltage system
- 15 Minute installation in most applications
- Convenient, reliable and affordable
- 120V Plug Adapter included
- Limited 2-year warranty - USA & Canada
- High-output 17" UV-C lamp
- Easy Lamp replacement

Benefits

- Healthier Home
- Eliminates moldy odors
- Eliminates need for costly duct cleaning
- Sanitizes dirty duct work
- Delivers disinfected air for pennies a day

Save money

The UVC light continuously cleans the coil and drain pan, making your system run more efficiently, resulting in less energy use and lower utility bills. Guards your family 24/7/365 for less than operating a 25 Watt light bulb.

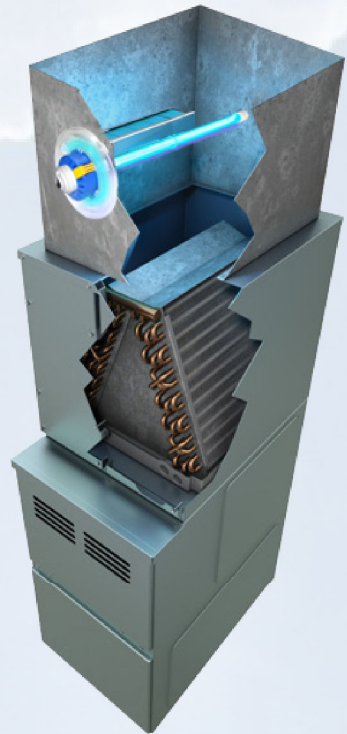

BIO SHIELD UV-C AIR SANITIZER

24 VOLT UV SYSTEM

Quick and Easy Do-It-Yourself Installation:

BUVAS installs from outside your unit—no need to open equipment to get going, or to change the lamp. Simply apply the installation template and follow its directions.

BUVAS's lamp and lamp socket are water resistant, shock resistant and built to last. Its low voltage meets all codes. The BUVAS is safe and simple—just right for today's requirements—and its affordable and easy to install.

Easy Installation:

STEP 1.

Locate Galvanized Duct, and attach mounting template to duct

STEP 2.

Drill hole in duct with 2 7/8" hole saw. (Drill Bit Included)

STEP 3.

Mount unit with 3 screws (included)

STEP 4.

Insert bulb. Plug Air Sanitizer into power source

Safety features protects against shock, and UV exposure.
